

Optometric Glaucoma Foundation

In partnership with the

2nd Annual Educators Program
September 8, 2018

489 Minor Hall
School of Optometry
University of California, Berkeley
Berkeley, CA

**Optometric Glaucoma Foundation
2nd Annual Educators Program
Saturday, September 8, 2018**

8:30-9am Breakfast

Jason Bacharach, MD

9-10:30am New Glaucoma Medications and How Were These Medications
Evaluated (Clinical Medication Trials)

10:30-11am Break

11am-12:30pm Everything an Optometric Educator Should Know about MIGS

12:30-1:30pm Lunch

Michael Patella, OD

1:30-3pm Everything an Optometric Educator Should Know about Perimetry

3-3:30pm Break

3:30-5pm Everything an Optometric Educator Should Know about Structure-
Function

Faculty Club, Seaborg Room

5:30-6pm Reception

6-8:30pm Dinner

Speakers

Jason Bacharach is the founder of North Bay Eye Associates in Petaluma, CA where he is the Director of Research. He received his medical degree from Hahnemann Medical School in Philadelphia, PA and completed his glaucoma fellowship at Jules Stein Eye Institute, UCLA Medical Center. He is the Principal Investigator in numerous pharmacology and device studies and has extensive experience in glaucoma medication and device clinical trials.

Michael Patella is a graduate of UC Berkeley, College of Optometry and spent his career at Carl Zeiss Meditec developing a host of devices and their software including the Humphrey Field Analyzer. He is the co-author of the Visual Field Primer and has taught perimetric principles to doctors around the world.

The Optometric Glaucoma Foundation would like to
acknowledge the generous support of

The Optometric Glaucoma Foundation would like
to acknowledge the companies that have provided
an educational grant for the
OGF's 2nd Annual Educators Program:

Aerie Pharmaceuticals

Bausch + Lomb

Santen, Inc.

Guest registration will open on September 13th. Please email optometricglaucoma@gmail.com for registration information.

Monday, November 5, 2018

6:00 – 9:00 PM Opening Reception *Republic*

Tuesday, November 6, 2018

7:20 – 7:50 AM Breakfast (opportunity to visit vendor exhibits) *Texas BC*

7:50 AM Welcome from Michael Chaglasian, OGS President *Texas A*

Session 1: Imaging structure and function in glaucoma

8:00 – 8:15: **Nevin El-Nimri (OGS Ezell Fellow)**: The myopia - intraocular pressure- glaucoma triad: pathological and therapeutic implications | 8:15 – 8:20: Discussion and questions

8:20 – 9:05: **Donald Miller**: Imaging the inner retina | 9:05 – 9:15: Discussion and questions

9:15 – 9:50: **Alex Huang**: Aqueous humor angiography | 9:50 – 10:00: Discussion and questions

10:00 – 10:30: Morning Break (opportunity to visit vendor exhibits) *Texas BC*

Session 2: Emerging perspectives in glaucoma *Texas A*

10:30 – 11:15: **Jay Katz (OGS Honoree Lecture)**: Is Glaucoma a Reversible Disease? | 11:15 – 11:25: Discussion and questions

11:25 – 11:50: **Alex Huang**: Retinal angiography in glaucoma | 11:50 – 12:00: Discussion and questions

Noon – 1:00: LUNCH (opportunity to visit vendor exhibits) *Texas BC*

Session 3: Glaucoma: Old and new thoughts *Texas A*

1:00 – 1:45: **Robert Feldman (President's Lecture)**: Primary angle closure glaucoma, a bigger problem than you think | 1:45 – 1:55: Discussion and questions

1:55 – 2:20: **Jay Katz**: Normal Tension Glaucoma: Old and New Thoughts | 2:20 – 2:30: Discussion and questions

2:30 – 2:50: **Robert Feldman**: Refractive surgery and glaucoma | 2:50 – 3:00: Discussion and questions

3:00 – 3:30: Afternoon Break (opportunity to visit vendor exhibits) *Texas BC*

Session 4: Intraocular pressure variation and management *Texas A*

3:30 – 4:10: **Arthur Sit**: IOP Variability: Causes and Clinical Significance | 4:10 – 4:20: Discussion and questions

4:20-4:40: **Thomas Freddo**: Validation of a more reliable method of eye drop self-administration | 4:40 – 4:50: Discussion and questions

4:50-5:10: **Arthur Sit**: What's New in Medical Therapy for Glaucoma | 5:10 – 5:20: Discussion and questions

Session 5: Panel Discussion

5:20 – 6:00: Panel discussion with all speakers

6:30 - 9:30: Reception and Dinner *Texas D*

Wednesday, November 7, 2018 OGS/AAO Joint Symposium

8:00-8:25 AM: Arthur Sit: IOP Variability: Causes and Clinical Significance | 8:25-8:30 AM: Discussion and questions

8:30-8:55 AM: Robert Feldman: Refractive surgery and glaucoma | 8:55-9:00 AM: Discussion and questions

9:00-9:25 AM: Jay Katz: Is Glaucoma a Reversible Disease? | 9:25-9:30 AM: Discussion and questions

9:30-9:40 AM: Panel Discussion
