

Glaucoma 2020

Program Description

Glaucoma 2020 is a webinar-based, national glaucoma education program, coordinated by the Optometric Glaucoma Society (OGS). The program is designed for optometrists who have a desire for a more in-depth and long-term clinical care experience with glaucoma. ODs will receive clinical care advice for whatever type/stage of glaucoma patient they encounter; leading to increased confidence and an ability to manage a greater number of glaucoma at more advanced levels of disease.

The majority of material will be Case Based discussion with other educational resources provided, including relevant articles, evidenced based materials, videos, etc. This is a six month-long program directed towards the management of glaucoma.

The 2021 program will run from March to August 2021.

- Interactive, online mentorship with OGS faculty
- Zoom Online platform, Small groups
- Monthly, evening programs for 45-90 minutes
- 6 sessions during 2021
